GitHub

PROJECTS

PassGen

Developed a web application that allows the user to generate secure passwords for their online accounts and web applications.

Accomplishments:

- Utilized Tailwind CSS and React to create an interactive and responsive user interface.
- Integrate Clipboard API to copy passwords to the Clipboard.
- Designed the application to allow users to generate passwords with UC, LC, Numbers and special symbols.

Personal Portfolio

Built a Personal Portfolio web application that reflects and share my learnings and projects to recruiters and others.

Accomplishments:

- Designed and developed the front-end using HTML, CSS, and JavaScript.
 - Utilize Tailwind CSS and React to create an interactive and responsive user interface.
-
